

## Phase 3 Curriculum Forecast

### Summer Term

#### Writing

As writers, we will be expanding on our grammar and authorial skills by creating both persuasive adverts and explanation texts. There will also be opportunities for us to create poetry based on memories as well as an autobiography.

#### Reading

As readers, we will be exploring "Cogheart" and "Skellig" in order to understand differences in character. We will also be gaining knowledge, thinking critically and drawing conclusions in non-fiction texts.

#### Maths

As mathematicians, we will be consolidating our understanding of decimals, fractions and percentages. Throughout, we will be exploring ratio, proportion, statistics and measurement.

#### Science

As scientists, we will be exploring animals and inheritance as well as deepening our understanding of the whole scientific investigation process.

#### Design and Technology

As designers, we will be learning and using our woodwork skills to create a working lighthouse, inclusive of a battery. We will research before planning, creating and evaluating.

#### History

As historians, we will be learning key facts and knowledge based on the end of the First World War before exploring the Second World War. We will be exploring evacuees and local history linked to this topic.

#### Geography

As geographers, we will be focussing on human geography through changing landscapes. We will have an opportunity to look closely and compare the UK with North America.

#### Art and Design

As artists, we will be exploring both painting and sketching related to North America. There will be opportunities to look at landscapes as well as body abstract Art.

#### PE

As sportspeople, we will be developing our health and fitness as well as cricket and tennis skills.

#### PSHE

As responsible citizens, we will be looking at relationships as well as 'changing me' and how we have adapted both across the year and how we may change moving forward.

#### RE

As respectful learners, we will be exploring worship and prayer, understanding the similarities and differences between faiths and cultures.

#### Computing

As computer scientists, we will be developing our understanding of data and information through Excel spreadsheets before exploring programming in Summer 2.

#### Music

As musicians, we will be understanding different styles of music before creating our own lyrics.
